

# THE CARDBOARD CAP

## A HONEYCOMB CARDBOARD CAP ECO-FRIENDLY AND INNOVATIVE

### HONEYCOMB PLUG

#### SPECIFICATIONS :

30 TO 400 MM DIAMETER  
12 MM THICK

#### ○ Eco-Responsible Innovation

Our new honeycomb cardboard caps represent a significant step forward in our commitment to sustainability and innovation. **Designed to replace traditional plastic caps**, these caps provide an eco-friendly and high-performance alternative for sealing our cardboard tubes.

#### ○ Sustainable Material

Our caps are made from honeycomb cardboard, a material composed of recyclable and biodegradable cellulose fibers, offering an environmentally friendly solution with a well-established recycling process.

#### ○ Strength & Durability

Beyond their ecological benefits, honeycomb cardboard caps provide excellent strength, ensuring a secure seal for cardboard tubes throughout their lifecycle.

### APPLICATIONS

- Mailing Tube
- Industrial Packaging

#### ○ Adaptability

Our caps are designed to perfectly fit cardboard tubes of various sizes (from 30 to 400 mm in diameter), ensuring an airtight and reliable closure thanks to the expansion of the honeycomb structure when sealing the tube.

- Eco-friendly alternative to plastic caps
- Strong and durable
- Adaptable to different tube sizes
- Recyclable and biodegradable
- Reduced carbon footprint
- Mono-material packaging (Cardboard tube & honeycomb cardboard cap)
- Well-established recycling process and high-value product
