

THE SHIPPING TUBE

PRACTICAL, ROBUST AND COST-EFFECTIVE PACKAGING

TUPACK TUBES WITH END CAPS OR CRIMPED ENDS FOR DISPATCH BY COURIER OR POST

○ Robust and convenient

A dispatch tube can have a crimped end, which is more practical and cost-effective, and is quicker to use. This is the TK range of “Tupack” tubes. Fitted with plastic caps (TB range) or cardboard end covers (100% cardboard combination), the tube can be made impenetrable simply by stapling or by the application of an adhesive. The plastic plug/cover/end cap/lid is supplied in white as standard (colors available on request).

APPLICATIONS

- kakemono banners
- strip banners
- documents
- T-shirts
- plans
- mechanical components
- planners
- blinds
- antennae
- streamers
- packaging and transport of rods, bars, etc. (up to 12 m) (jusqu'à 12 m)

○ Customization

Tubes can be customized by printing, enclosed in smooth colored paper, or in paper finished by offset printing. Tubes can be telescopic.

○ Tube caps

Tubes can be closed by caps of the insert type, with or without tabs, or by plug-on caps.

○ Decorated tubes

These are tubes with end caps or crimped ends, which can be customized by the application of an adhesive label, as in the case of a presentation tube.

Cardboard contributes to the **protection of the environment** and supports the **sustainable economy**.
